

Aurelius Dynamics Employee Handbook

Version 3.2

January 2031

Welcome to Aurelius Dynamics

Welcome to Aurelius Dynamics, a technology and engineering company focused on industrial automation, intelligent infrastructure, and large-scale sensor networks.

Founded in 2022 by Elena Voss, Marcus Hale, and Priya Nandakumar, Aurelius Dynamics began as a small engineering consultancy operating from a single office in Austin, Texas. The company was originally formed to help manufacturing firms modernize outdated monitoring systems. Within three years, Aurelius Dynamics expanded into predictive maintenance platforms, industrial AI systems, and autonomous inspection technologies.

As of January 2031, Aurelius Dynamics employs 1,240 full-time employees across four offices and serves more than 180 enterprise customers worldwide.

Our mission is simple:

"Transform industrial operations through intelligent systems that improve safety, efficiency, and sustainability."

Company Locations

Aurelius Dynamics currently operates from four major offices.

Headquarters

Austin Innovation Center
Austin, Texas

Primary functions:

- Executive Leadership
- Product Strategy
- Finance
- Legal

East Coast Operations Center

Raleigh, North Carolina

Primary functions:

- Customer Success
- Technical Support
- Sales Operations

Research Campus

Boulder, Colorado

Primary functions:

- Artificial Intelligence Research
- Advanced Robotics
- Systems Engineering

European Operations Hub

Dublin, Ireland

Primary functions:

- International Sales
- Localization
- Compliance

Employees are officially assigned to one home office regardless of remote status.

Organizational Structure

The company is divided into six major divisions.

Division A: Platform Engineering

Responsible for:

- Backend Systems
- APIs
- Infrastructure
- Cloud Operations

Vice President:

Jordan Mercer

Division B: AI Systems

Responsible for:

- Machine Learning
- Predictive Analytics
- Data Science

Vice President:

Dr. Amelia Chen

Division C: Hardware Integration

Responsible for:

- Sensors
- Embedded Systems
- Device Certification

Vice President:

Samuel Ortega

Division D: Product Operations

Responsible for:

- Product Delivery
- Program Management
- Release Planning

Vice President:

Rachel Kim

Division E: Customer Solutions

Responsible for:

- Customer Deployment
- Consulting
- Training

Vice President:

Daniel Brooks

Division F: Corporate Services

Responsible for:

- HR
- Finance
- Legal
- Facilities

Vice President:

Olivia Hart

Internal Project Structure

The company organizes strategic initiatives into named programs.

Project Orion

Objective:

Develop next-generation predictive maintenance algorithms for industrial equipment.

Program Director:

Amelia Chen

Primary Location:

Boulder Research Campus

Project Atlas

Objective:

Create a unified infrastructure monitoring platform.

Program Director:

Jordan Mercer

Primary Location:

Austin Headquarters

Project Nova

Objective:

Develop autonomous inspection drones for energy facilities.

Program Director:

Samuel Ortega

Primary Location:
Boulder Research Campus

Project Horizon

Objective:
Expand European market presence by 40% before 2033.

Program Director:
Daniel Brooks

Primary Location:
Dublin Operations Hub

Remote Work Policy

Aurelius Dynamics supports hybrid work.

Full-time employees may work remotely up to three days per week.

Employees assigned to:

- Platform Engineering
- AI Systems
- Product Operations

may request fully remote status upon management approval.

Hardware Integration personnel must work on-site at least four days each week due to laboratory requirements.

All employees must attend:

- Quarterly planning meetings
- Annual strategy summit
- Team-specific workshops

Remote work equipment allowance:

\$1,800 annually per employee.

Approved purchases include:

- Monitors
- Ergonomic chairs

- Keyboards
- Microphones
- Webcams

Unused allowance does not carry forward.

Employee Benefits

Health Coverage

Employees receive:

- Medical Insurance
- Dental Insurance
- Vision Insurance

Coverage begins on the first day of employment.

Retirement Plan

The company provides:

5% salary matching on retirement contributions.

Learning Budget

Every employee receives:

\$2,500 per year

for approved learning activities.

Eligible expenses include:

- Courses
- Certifications
- Conferences
- Technical Books

Wellness Benefit

Employees receive:

\$600 annually

for wellness-related expenses.

Leave Policy

Vacation Leave

Employees receive:

20 vacation days per calendar year.

Unused vacation days may roll over up to:

10 days.

Sick Leave

Employees receive:

12 paid sick days annually.

Volunteer Leave

Employees receive:

3 paid volunteer days annually.

Parental Leave

Primary caregivers:

18 weeks paid leave.

Secondary caregivers:

8 weeks paid leave.

Security and Compliance

All employees must complete annual security training.

Mandatory completion deadline:

February 15 each year.

Employees are required to use:

- Multi-factor authentication
- Company-managed password vault
- Encrypted devices

Sensitive customer data must never be stored on personal devices.

Any suspected security incident must be reported within:

2 hours of discovery.

Security incidents are managed by the Cyber Defense Office located in Austin.

Annual Company Events

Engineering Summit

Held every April.

Location rotates annually.

Innovation Week

Held every July.

Employees may dedicate 100% of their work time to experimental projects.

Leadership Forum

Held every September.

Attendance is invitation only.

Company Assembly

Held every December.

All employees are expected to attend virtually or in person.

2031 Strategic Objectives

Objective 1:

Increase annual recurring revenue to \$420 million.

Objective 2:

Reduce platform downtime by 35%.

Objective 3:

Launch Project Nova pilot deployments in three countries.

Objective 4:

Expand workforce to 1,500 employees.

Objective 5:

Achieve customer satisfaction score of 92%.

Message from the CEO

Aurelius Dynamics was built on the belief that engineering can solve meaningful problems when talented people work together with clarity and purpose.

As we enter 2031, our focus remains on creating systems that improve industrial safety, reduce operational waste, and empower our customers to make smarter decisions.

Every employee contributes directly to that mission.

Thank you for helping build the future.

— Elena Voss
Chief Executive Officer
Aurelius Dynamics
